Nota formattata di	This volume presents a range of theological standpoints regarding the filioque. With some contributors arguing for its retention and others for its removal, still others contest that its presence or otherwise in the Creed is not what is of central concern, but rather that how it should be understood is of ultimate importance. What contributors share is a commitment to interrogating and developing the central theological issues at stake in a consideration of the filioque, thus advancing ecumenical theology and inter-communal dialogue without diluting the discussion.
